

# **TERMS OF REFERENCE FOR THE**

## **WORTHING AND ADUR**

### **A27 WORKING GROUP**

The following Terms of Reference (TOR) address the work of the Worthing and Adur A27 Working Group;

- a. The Working Group (WG) will consist of personnel from the main political parties elected by Worthing and Adur residents; local businesses and local resident groups.
- b. The WG will evaluate all options that apply to the Worthing, Sompting and Lancing sections of the A27. The WG will have regard to such issues as value for money, benefits to the economy, congestion, casualty reduction, carbon emissions, all road users, including cyclists and pedestrians, air quality, integration with local transport networks, impacts on the local environment and direct and indirect impacts on the wider community.
- c. The WG will ensure that as much information as possible is placed in the public domain and promote appropriate media coverage about the options available.
- d. The WG will make recommendations to Department of Transport and Highways England. Recommendations may not be unanimous and this will be clearly stated when necessary. In the event that the final recommendations are not unanimously agreed, a minority group or groups, consisting of two or more members, may produce their own report. The intention however is to present a united response to the Department of Transport proposals if possible.
