

BYPASS NOT A27 THROUGHPASS,

PO Box 4989, WORTHING, West Sussex, BN11 9AJ. 31/08/16

General email: roadstopp@gmail.com

Website: www.bypassnota27throughpass.org

Dear Retailer Manager,

Please find attached 2 pages of information from ourselves about our Residents action group and the currently proposed works for the A27 through Worthing. These scale from major works to 'improve' the main junctions to a full dual carriageway straight through North Worthing.

We believe:

These will prove disastrous for residents along the route of the A27 and to the North side of it.

The works will prove to be 4 or 5 years of economic turmoil as the current A27 will at best be shut for either East or West bound traffic during the works, possibly both. Thus requiring diversions through Worthing itself. This will massively delay local deliveries and the last few miles of deliveries in to Worthing and Lancing.

We believe the Lyons Farm/Downlands retail park will be significantly disadvantaged as the junction is one proposed for major works. Possibly an underpass or flyover.

More information can be obtained from our own website, Highways England's website, your local MP (T. Loughton), The 'Worthing and Adur A27 Working Group' which has representatives from various organisations meeting at it.

We need your help to stop this disaster unfolding for all of us. What Worthing has needed for 60 years is a relief route or full bypass, not economic ruin and environmental degradation. **Worthing deserves better.**
